

DON'T LET THIS HAPPEN TO YOU!

"The really serious complaints are rogue movers or scam movers"

David Sparkman, Vice President of Communications for the American Moving and Storage Association

"Last year about 15 percent of consumer complaints filed against movers involved hostage goods"

Michelle Singletary, Washington Post

"In 2012, BBB received over 1.4 million moving-related inquiries and more than 9,300 complaints against movers. Complaints included damaged or missing items...."

Better Business Bureau

"A con artist with just a truck and a website can claim to be a legitimate mover with unfortunate results for consumers who don't check out a company in advance"

Linda Bauer Darr, AMSA President and CEO

HEAT Personal Moving Protection

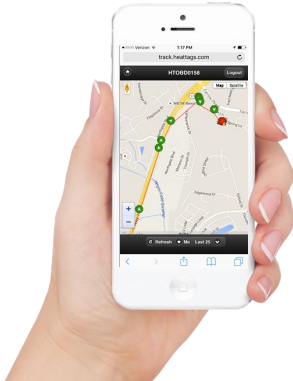

- ✿ Know where your irreplaceable possessions are while out of your control
- ✿ Be sure your stuff is at the location your movers say it is
- ✿ Get alerts if your items move—keep an eye to make sure they are all staying together
- ✿ Use the temperature monitoring feature to ensure you received climate controlled storage
- ✿ Keep an eye on the truck status when it is time for delivery
- ✿ Feel confident and more relaxed that you will get your possessions back!

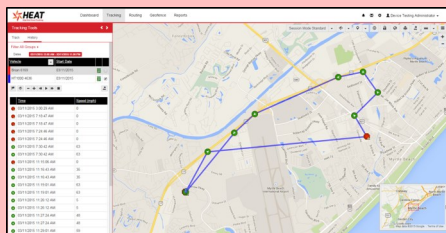

1  Buy a HEAT rental package

2  Drop a tag into key boxes or furniture

3  Load up into your POD or let the movers load their truck

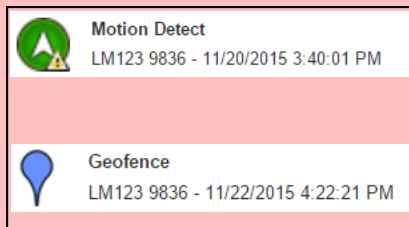

4  Get alerts on your phone and see where your stuff is!

Relax

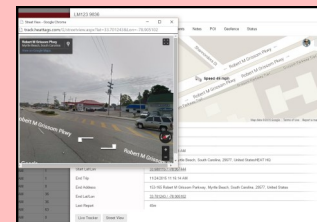

View travel history and location

Access up to four months of location history for your fleet—including speed and alerts!

Alerts for motion or exiting an area

Set up alerts for motion, speed or as many geofences as you want!
