

Industrial GPS tracking devices for establishing peace of mind for personal locating

HEAT HT300 Asset Tracker

-  **Long Standby Time – up to 15 days***
-  **SOS button for emergency position alert**
-  **Water resistant**
-  **Configurable reporting frequency**

A personal tracking device designed for maintaining peace of mind over the security of your loved ones or lone workers. Ideal for traveling executives or family members, the device is small and easy to operate from either side. The tracker can be configured to allow for alerts when the device moves beyond configured geo-fence settings. The user can also press individual buttons to alert configured mobile numbers and update position to the platform if help is needed.

General Applications

- Field / lone workers
- Asset tracking
- Aged / Senior Citizens
- Mentally impaired
- Vehicle

Features

- GPS tracking
- Geo-fence boundary alerts
- One-touch emergency alert
- Motion detection
- Scheduled reporting
